OUR COLOURISTS

Headmasters' Colourists are trained to the very highest professional standards. Every colourist is NVQ Qualified, and all receive further education at our two Headmasters Academies to keep their skills up to date with new innovations and trends.

Furthermore, Headmasters has more L'Oréal Master Colour Experts per salon than any other salon group. To attain L'Oréal Master Colour Expert status colourists have to attend an intensive training course and pass advanced practical and technical examinations.

We invest in colour training to guarantee you beautiful, confidence-boosting colour every visit.

Our colourists are priced according to their level, their level is based on how long they have been at Headmasters, except for a L'Oréal Master Colour Expert who has attained the highest industry qualification in colouring.

SAFETY FIRST

We put our client's safety above everything, which is why we always carry out a patch test 48 hours before your colour appointment.

CLASSIC HIGHLIGHTS / LOWLIGHTS

Using the traditional foil method, colour is woven throughout the hair in a full or half head for a natural result. This method is perfect for lightening the hair, or adding richness and texture. It adds volume to fine hair and texture to shorter styles.

TISSUE LITES

Originally developed for discerning Parisian women, using special tissues instead of foils, this technique allows for a delicate blending of colour between highlights for a more soft focused, diffused impression. Can be used to make your colour blonder, or add natural tones back into lightened hair.

BALAYAGE

This really is bespoke colour. Your colourist paints colour freehand where it will flatter you, highlighting your best features and making the most of your hair cut. It is a highly skilled technique allowing your colourist to tailor the result perfectly to you. A firm favourite with blondes but it's equally gorgeous for adding richness to brunettes.

Commitment: Low/Medium

Prices from £65.

Subtle ribbons of colour are placed where the sun would naturally lighten your hair, then a glossing is massaged into the rest of your hair. It works for all hair colours and the result is tasteful, pretty, natural and super shiny. Prices from £65.

Commitment: Low/Medium

Acts like a deep conditioner with colour enhancing qualities, giving serious shine whilst enhancing your natural colour. It blends away first greys and fades out after 8 to 10 weeks. Prices from £31.

THE 10 COMMANDMENTS *of Couture Hair Colour*
