1 Prep hair by blending Professionnel tecni art pli and L'Oréal Professionnel tecni art volume lift and massage into damp hair. Bow-dry hair upwards pointing the nozzle towards the brush to create height.

2 Divide horizontally in two, backcomb the top section by section. Focus on backcombing the roots to create height.

3 Lightly brush the hair back towards the nape of the neck creating a smooth but volumised surface.

4 Take all hair (including the loose section) to one side and pin in the centre in a vertical line. Pin upwards to lock the hair in place. Twist the hair clockwise around the thumb into a knot and pin into place.

5 Use both hands to massage the hair into place, smoothing any loose areas and spray with L'Oréal Professionnel tecni art gloss control for a silky finish.
